

TWO BRAVO

Training Solutions

Conducting two stand alone training courses June 9th and 10th at the Custer Sportsman's Club. They will be a 1-day Pistol Course and 1-day Carbine Course:

Focused on the Fundamentals

Creating a solid foundation in marksmanship and mechanics, a full day will be dedicated to both pistol and carbine. Each course will utilize contemporary training methodology and best practices in evolving the shooter's abilities, regardless of current experience levels. Instructor led discussion and practical application drills will break down the fundamentals of shooting, while a low instructor to student ratio allows for personal attention with direct and immediate feedback. Students will depart with the correct foundation, proper mechanics and relevant drills that will continue to improve their skills long after the course.

****Students may attend one or both days****

Each course will be a full day of training and cost \$250 each or \$450 to attend both.

Two Bravo Training Solutions is a culmination of over 15 years of both Military and Law Enforcement Special Operations experiences. As current Federal Law Enforcement officers, Instructors will draw on current, relevant experiences in developing and delivering firearms and tactics utilizing a training methodology and philosophy that allows each student to depart with the correct foundation, proper mechanics and relevant drills that will continue to improve their skills long after the course.
